Subject: Please Support Keeping TEP on track with energy efficiency, Docket No. E-01933A-15-0178

Dear Acting Chairman Little and Commissioners:

My name is Oscar Medina and I am a TEP customer.

Energy efficiency programs help Arizonans reduce our electricity bills through installation of efficient lighting and appliances, more efficient air conditioners, and by repairing leaky ductwork.

I urge you to support adding new cost-effective opportunities to the TEP portfolio and to expand on the success of current energy efficiency programs and policies. These efficiency programs create jobs in Arizona communities and help our economy overall by keeping more of our energy dollars right here in our state. Finally, because they save energy and reduce demand for electricity, these programs help drive down energy costs for everyone.

The Arizona Energy Efficiency Standard and these programs have already saved Arizonans hundreds of millions of dollars in lower utility bills, reduced air pollution, and water savings. I personally have utilized several programs like the home energy workshop with free energy kits by TEP have helped in the reduction of my energy use, leaving more dollars to spend on necessities. I would like to see more program offerings to help me and other TEP customers to further reduce our energy use.

Please work to allow the expansion of cost-effective energy efficiency programs in the TEP service area and approve funding to continue existing programs.

Thank you for your consideration,

Oscar Medina
